9.2 Crew Station

The pilot's seat for a transport aircraft, as shown in Fig. 9.2.1 has somewhat more space than for a fighter.

Fig. 9.2.1 Transport Aircraft Pilots' Seats

The flight deck plan view depends on the size of the aircraft. A plan view for the A330 is shown in Fig.9.2.2. As for all Airbus transports, apart from the A300, the pilots' primary control is a sidestick.
